- ✓ Has antioxidant and anti-inflammatory actions and immune building effects
- ✓ Helps to support the cognitive function in healthy adults
- ✓ May improve mental performance in healthy adults
- ✓ Has excellent free radical scavenger properties
- ✓ Supports a healthy eye function
- ✓ Contains Pycnogenol®, the French Maritime Pine Bark extract supported by scientific evidence

### THE BEST WAY TO TAKE ARBORVITAE IS AS FOLLOWS:

- A minimum dose of 60mL per day is required: 30mL each morning and evening.
- Upon commencing Arborvitae take 100mL per day: 50mL each morning and evening.
- Once your condition improves, revert back to 60mL per day: 30mL each morning and evening.

Place your Arborvitae bottles in the fridge after opening and shake well before use on each occasion.

Each product in the Arborvitae range has an identical formulation. Arborvitae's main function is to treat various health concerns by reducing inflammation in the body. The dosage recommendations differ depending on the ailment. You should not take more than one variant at any one time and not exceed the maximum recommended daily dose.

#### Warning:

Contains Potassium Sorbate, Sodium Benzoate and is sweetened with honey. Honey contains natural sugars. Not suitable for infants under the age of twelve months. Generally not to be taken if on Warfarin therapy, without medical advice.

Always read the label, use only as directed. If symptoms persist consult your healthcare practitioner.
